ASFA-S (12 mm) Hose Clamp Stainless Steel W3 DIN 3017

This clamp represents the latest stage in the evolution of the ASFA 12mm range. One of the main developments in this version is the lateral displacement of the band thread, which reduces the tendency of the band end to exit the housing off-centre when tightened. Thanks to the combination of the housing, the locking system and the location of the screw within the housing, this clamp offers superior performance at the same torque ratings.

Specially recommended for industrial applications.
The ASFA S hose clip complies fully with the DIN 3017 norm and also with the directive EU 2002/95/EC.

*** The maximum application pressure can vary depending on the type of hose used and the geometry of the coupling.**

TECHNICAL INFORMATION	
MATERIAL	Stainless steel band and housing W3 AISI 430 X6Cr17 (DIN 1.4016) Stainless steel screw W4 AISI 304 Cu
CORROSION RESISTANCE	200 hours salt spray (ASTM B-117)
MAX. TIGHTENING SPEED (RPM)	540 ± 5
