

FUEL PURIFIER 1500

PRODUCT NUMBER:

FP 1500

PRODUCT DESCRIPTION:

The RCI Technologies patented fuel purifier is a one-step unit that removes up to 99.8% of free water and up to 95% of other heavy contaminants that are found in diesel fuel. Even today's "clean" diesel fuel will easily become contaminated during transportation and storage. Unlike many other products on the market, the RCI Technologies fuel purifier performs this function without the use of a replaceable, changeable, or cleanable filter element or cartridge. By removing contamination immediately before the fuel enters the engine's filter system, you can keep your fuel clean, preserve fuel quality, and extend the life of your equipment.

The FP 1500 is designed for highway, off-road heavy-duty and marine equipment. Especially useful where additional contaminant storage capacity is desired. Optional platform base stand is available. Please specify for platform mounting.

PRODUCT FEATURES:

Product	Universal Fuel Purifier
Model	FP 1500
Nominal Flow	90 GPM (340.7 L/min)
In & Out Couplings	2" NPT
Top Port	1/2" NPT
Sensor Ports (2)	1/2" – 20 Straight Thread
Drain Port	1" NPT
Drain Valve	1" M-F brass
Height	39.6" (406.4 mm)
Width	7" (177.8 mm)
Gross Weight	41 lbs. (incl. mfg. hardware)
Sump Capacity	2 gal.
Finish	Polyester Black Powder Coat – 35 to 40 gloss
Options	Water sensor kit Platform base stand
