MIKALOR

W4

Supra 2-bolt heavy-duty clamp W4

The SUPRA 2-bolt heavy-duty clamp is an ideal solution for applications where increased performance and improved distribution of radial forces around the circumference of the band are required.

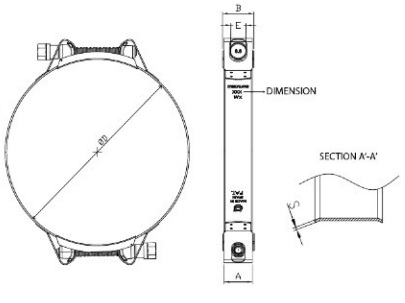

In order to ensure maximum clamping force, our bolts are manufactured in-house by Mikalor with an exclusively designed outer hexagonal head which guarantees the highest clamping force on the market.

The bevelled band edges avoid damage to the hose, making Supra safe and reliable to use.

This 2-bolt version of the Supra clamp is recommended for applications with an outer diameter (OD) over 270mm for use in sectors such as Oil and Gas, Marine, Agriculture, Foodstuffs, Hydraulics and Chemicals amongst others.

Ø D Application mm	Part Number	Ø D +0.3 -0.2	A ±0.3	S ±0.3	B ±0.5	E ±0.2	Tightening Torque (Nm)	Box Quantity	Outer Box Quantity
