

turbo®
PRECLEANER

The **turbo®** PR Precleaner

- ▶ Improves engine performance by delivering more air to engine at highway speeds. Saves Fuel!
- ▶ Louvered screen prevents plugging from snow or ice build-up.
- ▶ Extends air filter element life by removing most rain, snow, dust, etc., from intake air.
- ▶ Reduces re-entry of sooty exhaust air into air-intake.

Maximum airflow and minimum restriction for all your applications: **turbo®** PR Precleaner

turbo® PR Precleaner models and sizes

Model #	Inlet size base	mm	CFM range	m3/min
S	3", 4", 5"	76, 102, 127	50-500	1.4-14.2
L	6", 7", 8"	152, 178, 203	500-1500	14.2-42.5
XL	6", 7", 8"	152, 178, 203	1000-1800	28.3-51.0

S and XL sized units are made from Polymer with 25% glass center. L units are metal with a powder coat finish.

Important Note: turbo PR Precleaners are sized according to maximum engine c.f.m. To order, indicate maximum engine R.F.M. , cubic inch displacement, whether gas or diesel is used, and if engine is turbocharged.
